## SPIROMETER

With the use of a Spirometer we can help diagnose and monitor certain lung conditions by which the spirogram will identify two different types of abnormal ventilation patterns, obstructive and restrictive.

## TSI PORTACOUNT RESPIRATOR

With the use of a TSI Portacount Respirator, we conduct Fit Testing for personnel by providing a quantitative assessment of face mask fit. We ensure that personnel follow the necessary guidelines prior to testing in order for "a perfect mask to fit" to be achieved.
