# DRUG AND ALCOHOL POLICY

The company recognizes the threat of usage of alcohol and illicit drugs such as cocaine amphetamines, phencyclidine, marijuana, etc and the risk they pose to health and safety of personnel at work.

To this end, **SALVGRAND OIL LIMITED** intends that the use of drugs and alcohol at work and outside workplace is completely eradicated.

It is an offence that can lead to dismissal from **SALVGRAND OIL LIMITED** for any of our workers to use drugs and alcohol at work or be found to be under the influence of drugs and alcohol at work.

To achieve a 100 percent drug and alcohol free workplace on our worksite we shall:

Conduct pre-employment and random testing for drug and alcohol addiction.

Conduct induction programmes to all personnel on the project on the harmful effect to health of use of illicit drugs and alcohol.

- Regularly conduct test on personnel for traces of illicit drugs and alcohol at work.
- Closely monitor personnel.

All personnel working for the company are required to implement this policy to the letter.

# SAFETY POLICY

It is the company's policy that all possible steps will be taken to ensure the health, safety and welfare at work of all employees as well as protect and conserve the immediate environment.

The company will ensure that management supervision and all employees conform to company's policy and employees are aware that they have a duty to take practical care for the health and safety of themselves and other personnel who may be affected by their acts or missions at work. Every effort will be made to provide free of charge personal protective equipment (PPE) and will actively encourage the use/wearing of such equipment.

Regular safety meetings will be held periodically by the safety coordinator who will provide the minutes of such meeting to appropriate quarters. Safety representative will be selected from workforce and these will report direct to the safety coordinator. Safety matters/activities will be supported squarely by the management at all times.

# ENVIRONMENTAL MANAGEMENT

We ensure that quality consultancy services are given to our clients in order to promote environmental management and reduce pollution (environmental) to a bearable minimum.

**SALVGRAND OIL LIMITED** has experienced team in environmental study, waste management and environment management. Our corporate focus is broadly based on environmental studies, waste management that covers the following:

- (a) Oil spill cleanup and remediation of oil spill imparted areas.
- (b) Waste control and waste segregation/disposal.

# CONTRACT MANAGEMENT

**SALVGRAND OIL LIMITED** has demonstrated its ability to focus on improving performance in the area of contract management. In our contract management scheme, we have developed several means of ensuring that contacts are properly managed and executed to the satisfaction of the customer. Products and services are verified, stored and maintained. All customers-supplied products must be adequately taken care of. Where we have unsuitable/defective customer-supplied materials, such materials are identified, tagged and placed in protective custody to avoid damage while we make arrangements for their replacement.

Furthermore, in our contract management scheme, we have records for process control. These records help us ensure that all operational activities of the company are carried out under controlled conditions to achieve desired output.

# MANPOWER PROVISION AND COORDINATION

**SALVGRAND OIL LIMITED** has well-trained, experienced, highly skilled staff and expatriate personnel of various disciplines that are readily available for mobilization and easy deployment as appropriate within short notice. # OIL AND GAS SERVICES

We offer services in oil, gas and energy industries using sophisticated materials and equipment. Our high efficient approach to the supply of materials and equipment has always been adopted by various clients.

**SALVGRAND OIL LIMITED** offers world-class services to the oil and gas industry. We provide quality, innovative and effective solutions designed to meet the present day challenges of the oil and gas industry and other industrial markets. We operate in all the major projects in the oil and gas sectors particularly the offshore fields.

# LOGGING SERVICES

**SALVGRAND OIL LIMITED** has been involved in the supplying of Hydrocarbon Logging services to the petroleum industry. Major oil and gas companies have heavily relied on us to supply them the highest quality logs with consistent information and accurate predications during planning and while drilling for many years.

We provide research and development so that we can provide better and more accurate information to our clients. We have the latest technology coupled with well-trained workers to help foster our services to our clients.

# PROCUREMENT AND LABOUR/GENERAL SUPPLIES

We provide equipment and material procurement, labour and general supply service to the oil and gas industry. We also supply manufactured goods connected with the exploration and delivery of oil and gas. Salvgrand Oil Limited offers expert and incomparable level of service to our customers with great expectations by delivering diligent honest, reliable, and qualitative service that meets specific demands of our clients.

Our years of experience in the oil industry wide-reaching procurement services include dealings with established manufacturers, major companies and suppliers. We are therefore competent to the supply of equipment to the correct specification, on time and within budget.

For exploration, drilling, marine services, and oil production, we can procure and ship all equipment and material used in these services.

# DRILLING SERVICES

We are adequately engaged in standard drilling, well completion, workovers and well testing. **SALVGRAND OIL LIMITED** has one of the leading professional drilling forces utilizing advanced technology, rich experiences, excellent associated services. We have proven to be a tested player in the onshore drilling sector.

Our experienced and well trained drilling crews, as well as workover/well testing crews have helped in drilling and completion of various projects across our sphere of contact. With considerable drilling experience on land, **SALVGRAND OIL LIMITED** is equally experienced with offshore drilling. We have various categories of drilling equipment that are available for offshore drilling.

# DREDGING AND MARINE SERVICES

**SALVGRAND OIL LIMITED** undertakes the following in dredging operation:

- The dredging of harbours, maintain the depth in existing ports and channels to provide ready and safe passage for commercial and recreational vessels.
- Create new or deeper access or berths for vessels. This may mean the deepening and widening of channels and anchorages as well as the excavation of basins and marinas from areas of previously dry land.
- To provide material for specific purposes, e.g. beaches in coastal areas subject to erosion are sometimes 'renourished' with sand dredged from other areas.
- To stockpile cubic of sand for public and private organizations
- To bypass an artificial structure, such as a breakwater, that is an obstacle to the normal pattern of sediment movement along the coast.

- Dredging prevents a build up of material to be deposited downstream of the obstacle to allow the natural sediment transport process to occur.

## **MARINE ENGINEERING SUPPORT**

**SALVGRAND OIL LIMITED** provides the following fleet engineering technical support services:

- Heavy-lift transport engineering
- Engineering for vessel conversion and modification
- Mechanical, piping and electrical system engineering
- Stability analysis
- Structural analysis
